

myclimate – The Climate Protection Partnership

The non-profit foundation myclimate – The Climate Protection Partnership, is an international initiative with Swiss origins. Founded in 2002 as an ETH Zurich spinoff, myclimate is among the world leaders when it comes to voluntary carbon offsetting measures. Science-based and market-oriented, myclimate offers a comprehensive package of services for offsetting in accordance with the principles of «avoid – reduce – offset» and «do the best and offset the rest». This is how myclimate turns the challenge of climate change into your opportunity.

myclimate services

Carbon Management Services

Using carbon assessments and carbon reports as well as other comprehensive life cycle assessments, myclimate assesses the ecological footprint of products and processes. In addition, myclimate supports companies with a range of tools to help them develop a climate strategy and optimise their processes.

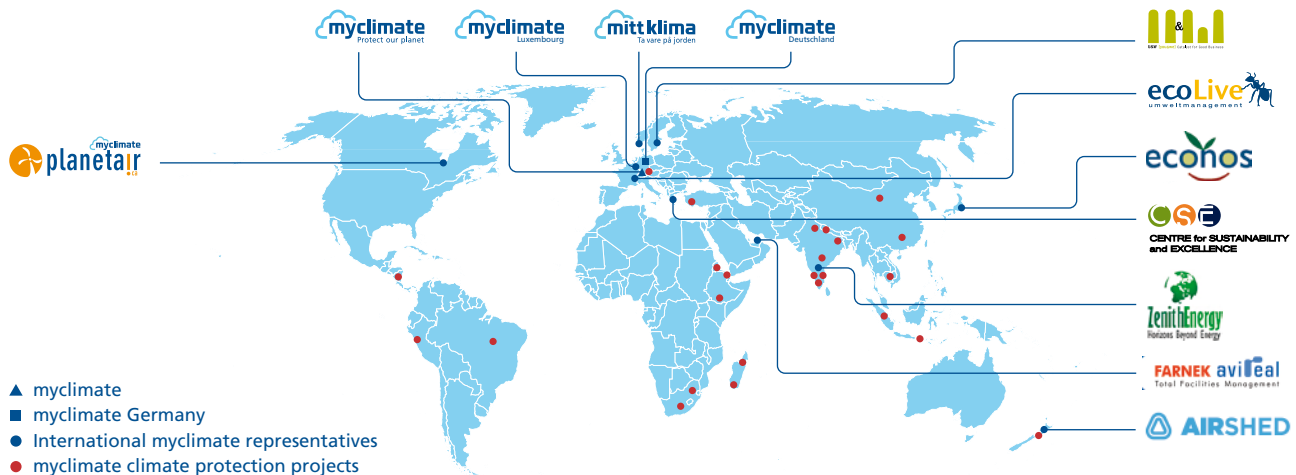

Climate Education

myclimate climate education uses in-depth expert knowledge, conveyed through a range of awareness-raising projects, to motivate for a long-term climate protection. With creative and engaging methods of information brokerage a number of ways to avoid or reduce CO₂ emissions in everyday life is imparted.

Offsetting

Thanks to myclimate, individuals can fly in a climate neutral way and offset their car and household emissions. myclimate also offers tailored solutions for businesses. For instance, it is possible to make individual departments, products or even entire companies climate neutral. Using the offset payments, myclimate develops and supports high quality carbon offset projects around the world.

myclimate carbon offset projects

myclimate develops and supports carbon offset projects around the world that directly reduce greenhouse gases: Fossil fuels are being replaced by renewable energy or alternatively, allow the realisation of energy efficiency measures. myclimate carbon offset projects fulfil the highest standards (CDM, Gold Standard). They lead to a reduction in CO₂ emissions while making a significant contribution to sustainable development in the respective regions. At least 80 percent of the offset funds flow into the myclimate carbon offset projects.

International network

myclimate has clients and partners around the world. Within individual countries, client acquisition and support is handled by myclimate representatives. The reseller network consists of successful and well-established local organisations and is being expanded continually. At present myclimate is represented by partner organisations in Canada, Norway, Sweden, Luxemburg, Greece, the United Arab Emirates, Japan, India and New Zealand. Since October 2009 myclimate holds an independent subsidiary in Germany (and thus in the European Union): the non-profit organisation «myclimate Germany gGmbH».

myclimate in brief

- **Founded in: 2002**
- **Organisational structure: non-profit foundation**
- **Headquarters: Zurich, Switzerland, 35 employees**
- **Strategic leadership model: eight-member foundation board**
- **Turnover 2009:**
CO₂ offsetting: 10 million CHF (300,000 t)
Services: 1.7 million CHF
- **35 carbon offset projects around the world with carbon offsetting volume of 2.4 million t CO₂**
- **International network with 10 myclimate representatives**
