Number of participants: 6

Education: High school

## Priority of needs

Have fun

Get to know cultures

Recreate

## What makes your trip climate friendly?

We have deliberately chosen to travel by IC trains, as they are very environmentally friendly. Within the cities we will reach very many activities on foot or with rented bicycles. Furthermore, we will visit flea markets (e.g. Flea Market at Mauerpark in Berlin), where the purchased clothes are second hand. We consciously avoid shopping trips. Last but not least, we will eat a vegetarian diet (2 vegetarians). We also want to enjoy regional specialties. We chose our accommodations centrally located in order to avoid distances and to be able to walk accordingly. We chose the destinations all within Central Europe, which is why the travel distance is shortened and the emissions are kept low.

**Travel destinations:** Berlin, Vienna, Ljubljana, Rijeka

## Framework

- 14-day Interrail trip (train) through Europe.
- From Bern to Berlin, Vienna, Ljubljana, Rijeka and back to Bern.
- We are between 17 and 18 years old (6 people - mixed).
- We are old friends and don't see each other much otherwise.
- At the moment we are already in the middle of planning and are very excited.
- Spontaneity and openness/tolerance are important to us on our trip.
- Since sustainability and climate protection are close to our hearts, an Interrail is the perfect option.

## Key data of the trip

Period: Jul.23

Travel duration: 15 days

Total distance: 2961km

CO2 emission: 100kg

## Activities

- Museums, - City tours, - Concerts, - Strolling through the cities, - Delicious food, - Swimming, - Renting bicycles

## Accommodation

Youth Hostel / Hostel; Bed and Breakfast;

## Means of transport
