

Nora und Paula auf Abenteuerfahrt

Travel group

Age: 18 years

Number of participants: 2

Education: 2nd grade Gymnasium Kirschgarten

Expectations for the trip

We want to discover many new places together. It is very important for us to have a lot of contact with the locals and not just go to the super tourist places. We want a good mix of fun, relaxation and adventure. We also both want to get out of our comfort zone. We are open to all new impressions.

General conditions

- Duration min. 10 to max. 30 days
- Budget 2500 CHF

Key data of the trip

Duration of trip: 20 days

Total distance: 2799 km

CO₂ emission: 8.15 kg / person / day

Route

From	To	Km	Means of transport
Basel	Wien	660	Train
Wien	Ljubljana	383	Bus
Ljubljana	Zagreb	137	Train
Zagreb	Split	407	Train
Split	Ancona	237	Ferry
Ancona	Venedig	374	Train
Venedig	Basel	601	Train

Activities

We want to visit different museums in the different cities. For example, the Natural History Museum in Vienna or the Museum of Modern Art in Ljubljana. We would also like to go a bit inland and then do a small hike. In Split, of course, we would like to go to the beach. Since we both love cafés, we will definitely go to many different cafés and try them out. Otherwise, we just want to get to know the culture and get tips from the locals on what we could do.

Accommodation

We want to try out very different types of accommodation. Accordingly, we would like to stay with locals if possible, rent our own flat, go to a youth hostel or a hostel. We want to keep it simple and not spend too much money on it. It is also important to us that it is very authentic and that we feel comfortable. We are open to any kind of accommodation and are therefore uncomplicated.

Personal added value of the trip

We both want to see as much of the world as possible. This competition would allow us to see a bit of Eastern Europe. We have both never been there, but have heard from countless people that it is very beautiful. With this trip, we could go on holiday for the first time all by ourselves for a longer period of time. We will grow a lot from this experience and make memories for life. We will meet many new people and hear many new inspiring stories. On this trip we can immerse ourselves in a completely different culture and grow from it. We believe that you can always learn more and then bring that back to Switzerland and keep it going. For us it is especially important that we are always open and flexible. We don't want to limit ourselves. It is important that we have a rough plan but are also spontaneous and change it.

Impact of the trip on the environment and people

It was very important to us that we didn't fly. We tried to keep the emissions as low as possible. At the same time, we wanted to use different means of transport. We think we have a good mix and still not too much CO₂ emissions. We both like long train rides, because you see a lot of nature. We hope to have a close exchange with the local people and learn a lot of new things. At the same time, we hope to bring a breath of fresh air to the place and that people can learn something from us. We discussed the destination the most. At the beginning, we couldn't really decide whether we wanted to go more to the south or the north, but then we decided to go more to the southeast simply because it is something completely new and more beautiful in the summer.

Motivation for participation

We just want to see more of the world together and experience many new adventures together.
