

# Shape Your Trip

Why do I travel? Summarise travel needs on the blackboard.

**Shape Your Trip enables young adults to deal with the ecological and social effects of their personal travel behaviour. Using their own travel ideas as an example, together they work on possible courses of action to design leisure and school trips more sustainably.**

**On this website you will find general information on the Shape Your Trip project, as well as the teaching materials in Italian. For information in German and French, switch to the desired language in the menu above.**

## Shape Your Trip in the classroom

Would you like to address the topic of “sustainable travel” with your students in the classroom? Get suitable teaching materials here, free of charge, or book an impulse lesson (in German only) with myclimate. Find all further information here.

## Shape Your Trip travel contest

Sustainably designed trips should be rewarded! That's why our travel competition is held at the end of each school year. Our next competition will be held in summer 2022. Find out more about the process and the conditions of participation here.

### Project type:

Baccalaureate and vocational schools

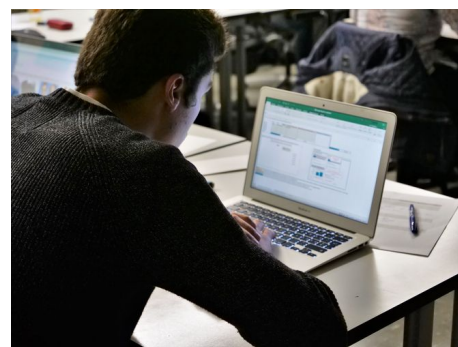

### Offer

Teaching materials in three languages (German, French and Italian). Free impulse lessons in German-speaking Switzerland on the subject of “sustainable travel”

### Partners of Shape Your Trip

### Impressions

How is my travel affecting the climate? Calculate the CO<sub>2</sub> emissions of your travel idea.

What can we do? Workshop on sustainable travel opportunities.

Exchange between the students.

myclimate in the classroom - discussion on "sensible travel"
